RULES OF PLAY

By playing the game you accept all rules of play.

Rules of play include the rules printed on the computer generated paper ticket, rules printed with paytables and other printed rules published by the keno operator. Rules are not subject to oral modification by any keno writer, keno manager, employee, owner, agent or anyone else. Games are subject to federal, state and local laws and regulations. You agree to accept your computer generated paper ticket as issued, even if issued in error. There is no liability for prizes that could have been won if your ticket had been issued differently. If requested, writers may attempt to correct errors before you leave the keno station but are under no obligation to do so. You may request a refund of your ticket at any time before the games to which that ticket relates are closed. Your computer generated paper ticket is evidence of your bet and must be presented and surrendered in order to collect any prize. The keno operator may pay the bearer of the computer generated paper ticket and has no liability for lost or stolen tickets. If you do not receive a computer generated paper ticket (the cause of which may include but is not limited to: the printer running out of paper, a paper jam, equipment malfunction, electrical problem, writer error, or any other reason, or no reason at all), you do not have a valid bet. In that event you are entitled to a return of your purchase price and nothing else. If there is a dispute regarding the information shown on your computer generated paper ticket, internal computer records govern. The betting slips provided for your convenience are not evidence of your bet, and are of no legal effect.

Separate individual games are conducted at each location where keno is played, and are intended to be played exclusively by patrons of that location. If your ticket is played for fewer than 21 games, you must be present in the gaming area from the time your ticket is issued through the last game played. You must claim, where your ticket was purchased, any prize won immediately after the last game played and before the next game is called, except that prizes on tickets played for 21 or more games must be claimed within 1 year after the last game played. Results of each game may be based on number selection at a separate location. Prizes of \$500 or more may be payable in vouchers redeemable and subject to verification at a separate location. All games using the same number selection have a common prize pool. The aggregate maximum payable on prizes of \$5,000 or more in all games using the same number selection is limited to \$150,000. If necessary to comply with that aggregate maximum, all prizes of \$5,000 or more will be reduced pro rata. The maximum amount payable on any single ticket is \$100,000. Large prize payments are subject to verification which may take several days. Names of winners may become public information. By playing the game you consent to the use of your name and likeness for advertising purposes. You agree to fill out such tax and other forms as required in the event you are a winner.

Your computer generated paper ticket is void, regardless of whether you are aware of the circumstances, if (1) it relates to any bet not paid for, (2) the rules of play or federal, state or local rules have been violated in the issuance of the ticket, the conduct of the game or otherwise, (3) the ticket or any equipment or software related to the game has been tampered with, has malfunctioned, or is defective, (4) anyone has attempted to influence the outcome of the game to which the ticket relates, or (5) the ticket has been purchased, directly or indirectly, by a person under 19 years of age or any person prohibited from playing the game. Void tickets give no claim to prize payment. The keno operator's payment or compensation of the holder of any void or non-winning ticket, or any other player, does not affect the keno operator's right to dishonor other void or non-winning tickets or any other invalid claim. The keno operator's liability on a void ticket is limited to the amount bet. Maximum bet on any ticket is \$100 per game. The keno operator and the locations in which it operates reserve the right to refuse to accept bets from anyone. In locations where numbers are advertised as being generated by a live ball draw, numbers may, from time to time, be generated by a random number generator.

All games are conducted by the City of Lincoln and are operated by EHPV Lottery Services LLC which has sole responsibility for payment of prizes.

THINGS TO KNOW

Federal Income Tax

Congratulations on your big win! We are eager to get you paid. We just need to tell you about a few IRS rules we need to follow.

We are required to file an IRS Form W-2G on all net keno winnings of \$1,500 or more on one ticket. The IRS considers a ticket written for more than one game to be one ticket. The total amount you have bet on the ticket is deducted from the total amount you have won, to determine whether your net winnings are \$1,500 or more. For W-2G tickets, we can pay a maximum of 10% of the winnings to you in cash. We will pay the remainder of the winnings to you by check.

In order for us to complete the Form W-2G, the IRS requires you to provide us with the following information:

1. A completed Form W-9, Request for Taxpayer Identification Number and Certification

AND
